**Subject:** RE: Sprague Asphalt Truck Rack Sampling

Bob – we are hoping Thursday will be a steady asphalt loading day for us, starting roughly 0400 through about 1300. This asphalt rack testing regimen has been weather-dependent, as the liquid asphalt is drawn from the tanks on a real-time basis when paving projects are underway. Because of the long spell of wet weather, paving has been scarce. We store the material for our customer, Irving, who has provided us with their best estimate of truck traffic and based on that, and the positive weather forecast, we are hoping this schedule holds.

The terminal is off Route 1 (also Route 3) on Trundy Road. You will want to look for the Hamilton Marine on Route 1 and turn at that street. Please ask for Paul Barragan, Terminal Manager, when you arrive at the gate. Can you forward us your contact information, in case there is a glitch in our schedule?

Thanks  
Elizabeth

Elizabeth, can you give me an expected timeframe for the testing? I may have a window that morning to come over.

Also- is it right off US Rt. 1? If not- what are the directions to find it?

Thanks!

Bob

Elizabeth:

I received your voice mail. And this email. Thank you for the update.

As I mentioned in our call, Sprague and Eastmount can proceed with testing without my involvement in this upcoming event.

I am copying Bob Hartley of MEDEP on this email so he can be aware of the event and I would ask that you keep him copied in my absence. I welcome him to attend but I do believe he is covering another test event this week.

I am away from later this afternoon till June 25.

Please update me via email on any developments.

Bill Osbahr

Bill – I just left you a voice mail. As discussed last week, you were OK with us sampling our asphalt truck rack if the weather and business conditions were favorable. It appears right now that we are anticipating good weather, and Irving is confirming they expect some decent truck traffic. Therefore, Anthony is planning to set up Wednesday evening in Searsport and will plan to begin testing on Thursday. We will let you know if these plans change.

Thanks  
Elizabeth
